

WORTH WILL

ALUMINUM CORRUGATED SHEET/TILE

Aluminum roofing and curtain wall panel have been widely applied in the construction industry. AA3004 aluminum magnesium manganese alloy is widely recognized as roofing and exterior wall material with a service life of over 50 years.

Application:

It's widely allied to building roofing and wall system such as airport terminal, aircraft maintenance depot, station and conference and exhibition center, stadium, exhibition hall, civil residence etc.

Advantages:

- 1) No connection, no screw hole, complete appearance
- 2) Bending inner and outer arc
- 3) Selected material and colors
- 4) Waterproof and drainage

TECHNIQUE PARAMETER

Item	Alloy	Temper	Coating thickness	Base aluminum size	Capacity / month
Aluminum Corrugated Sheet	3003/3004 or as per customer's requests	H24 or as per customer's requests	As per customer's requests	Thicknesses 0.5-1 mm or as per customer's requests	1000 Tons

PRACTICAL SCENE
