

WORTH WILL

IMITATION STONE ALUMINUM COIL/SHEET

The imitation stone aluminum coil/sheet is the printing product produced by the fluorocarbon roll coating on the surface of the aluminum plate after the pretreatment of chromatin and so on. It has become a new material to replace the traditional stone and glass curtain wall.

Application:

It's widely used in airport, railway stations, office buildings, shopping malls, hotels, bars, clubs, art galleries, museum walls and so on.

Advantages:

- 1) Light weight, good mechanical property, high strength
- 2) Good durability and corrosion resistance by PVDF fluorocarbon painting, 20 years quality guarantee
- 3) Good process performance. Easy to clean and maintain.

TECHNIQUE PARAMETER

Item	Alloy	Temper	Coating thickness	Base aluminum size	Capacity / month
Imitation Stone Aluminum Coil/Sheet	1100/3003 or as per customer's requests	H24 or as per customer's requests	Above 35 microns	1.85-5 mm x 900-1800 mm x 2000-6000 mm	500 Tons
