

WORTH WILL

POLYKRAFT INSULATION EMBOSSED ALUMINUM COIL/SHEET

Stucco embossed aluminum coil/sheet has a very high degree of adhesion. It does not gel and does not fall off after 24 hours of immersion test. Weather resistance is very high, kraft paper is not affected by temperature changes.

Application:

It's widely used in the fields of anti-corrosion and heat preservation engineering, and exterior & interior decoration, furniture, cabinets, refrigerator, freezer elevators, chemical / insulation pipe coating and so on.

Advantages:

- 1) Anti-corrosion & moisture-proof construction convenience
- 2) Good ductility and strong moisture-proof function
- 3) 0.1-0.15mm kraft paper has high strength bonding
- 4) Liner and top grade stadiums can be composited with kraft

TECHNIQUE PARAMETER

Item	Alloy	Temper	Specification	Kraft	Surface protection	Capacity/month
Polykraft Insulation Embossed Aluminum Coil/Sheet	1050,1060, 3003 etc	H14/ H24 etc	0.1-3.0 mm x 200-1200 mm x C	0.1-0.15 mm/ customized yellow kraft	PE/ plastic film covered	1000 Tons
