

WORTH WILL

SOLID/ METALLIC COATED ALUMINUM COIL/SHEET

Solid/metallic aluminum coil/sheet is the building decoration material formed by the technology of fluorocarbon roll coating after the treatment of chromatin and so on.

Application:

It's widely applied to all kinds of exterior and interior walls, lobby facades, elevated corridors, advertising signs, indoor special-shaped ceiling, balcony, hospital canopy Opera hall, stadium reception hall and so on.

Advantages:

The roll coating process is generally divided into two, three or four coating. Fluorocarbon coating has excellent corrosion resistance and weather ability. It can resist acid rain, salt spray and various air pollutants.

TECHNIQUE PARAMETER

Item	Alloy	Temper	Coating thickness	Base aluminum size	Capacity / month
Solid/Metallic Coated Aluminum Coil/Sheet	1xxx,3xxx and 5xxx or as per customer's requests	H24,H26 or as per customer's requests	As per customer's requests	0.25-5 mm x 30-1800 mm x C	1500 Tons

PRACTICAL SCENE
